Features:

- Ultralight, portable scanner
- Scan full color A4 in 1.6 sec.
- No computer required to scan!
- Preview images with 1.8" color LCD screen
- Save images to microSD™ card up to 32 GB
- Resolution up to 600 dpi
- Direct save images in JPEG/PDF file format
- Ideal to scan books or documents up to 14" (356 mm) in length
- Color/ B&W mode selection
- View images in iPad

A mobile scanner that scans anywhere, anytime

Experience the efficiency and convenience of a truly mobile scanner! Powered by Li-ion battery, the MiWand 2L PRO is a mobile scanner that allows you to scan without a computer or software. Simply gliding the scanner over the surface of a page and the scan is done. The images are then saved to a micro SD card up to 32G.

A fast and high-performance scanner

The scanner is small and portable. Yet, the Avison's MiWand 2L PRO delivers outstanding performance. As you move the scanner over an area as large as 8.5" x 14", its sensitive color image sensor scan at 600 dpi or 300 dpi resolution in 24-bit true color. The high-quality images are saved to a JPEG or PDF format in micro SD card. What is best, the MiWand 2L PRO takes only 1.6 seconds to scan a full page at 300 dpi in color.

Easy to use

The scanner is built-in with a clear color LCD display that shows the previewed images, scanner settings and warning messages.

Just turn on the scanner, press the Power/Scan button and move the scanner over a page, a wall, or a box and press the Power/Scan button again to stop the scan. Your scan is completed.

Preview images with 1.8" color LCD display

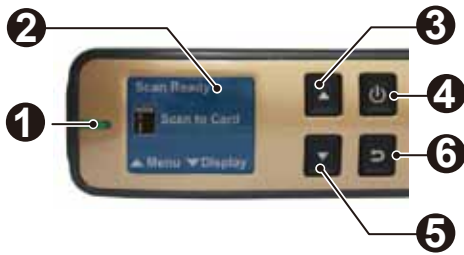

The Preview feature allows you to view your JPEG image on the color LCD screen for 2 seconds immediately after a scan to confirm the images you have just captured. In addition, you can also view all images individually or as a slideshow.

Start instant scan with the feeder dock

When the scanner is attached to the feeder dock, the Avison's MiWand 2L PRO allows you to start "instant scan" as soon as a page is fed into the feeding slot. The scan will be automatically started and the image is saved into a memory card with a predefined image mode and resolution. Furthermore, the whole unit allows you to scan paper up to legal size (216 x 356 mm or 8.5 x 14 inch).

MiWand 2L PRO

The easy-to-use 1.8" color LCD screen and button

1 System indicator light	Indicates the operating/warning status of the scanner.
2 LCD display	Displays preview images and settings menus.
3 Up arrow	<ul style="list-style-type: none"> Enters Menu screen from [Scan Ready] screen. Navigate "backward" through images and menu options.
4 Power button	<ul style="list-style-type: none"> Press and hold for 3 seconds to turn on the scanner. Press to start or end a scan. Accept option choice in Menu and Preview options. Press and hold for 3 seconds to turn off the scanner.
5 Down arrow	<ul style="list-style-type: none"> Enters Display mode from [Scan Ready] screen. Navigate "forward" through images and menu options.
6 Return arrow	Return to previous screens or exit from Display mode or Menu option.

View images in iPad

Through the mini USB port, the scanned documents can be easily transferred to iPad (with additional iPad Camera Kit) or any SmartPhone which supports USB Host or USB OTG.

Wireless design, scan images anywhere

The brand new portable scanner can be operated with a single hand. Powered by an Li-ion battery, you do not need to carry a heavy power adapter and hunt for an electric outlet anymore!

Since no computer is required to start a scan, you can carry it to anywhere, anytime! Whenever on the road, in a plane, a car or a café, you can digitize almost everything right away! Whether standing or sitting, you can complete your scan by simply gliding it over a surface. Even the posters on the wall or a pretty carton can be easily digitized!

Scanner Specifications:

Technology:	CIS (contact image sensor)
